Mancha De Rolando - Fuera de Control (2006) References External links Viaje at Discogs Viaje at MusicBrainz Category:2004 albums Category:Mancha de Rolando albumsQ: Drawing a sample of a random variable  $Z \sim \text{Unif}(0,1)$  Given  $SZ \sim \text{Unif}(0,1)$ , I want to generate a sample of a variable of that distribution. I can generate  $SZ = \frac{U}{V}$ , where  $U$  and  $V$  are iid random variables, but that is not what I want. I have seen in previous course, students used:  $Z = \min\left(\frac{U}{V}, 1\right)$ , where  $U$  and  $V$  are iid random variables,  $\mathbb{P}(U \leq \alpha) = \alpha$  and  $F_Y(y) = \begin{cases} \alpha & \text{for } y \leq \alpha \\ \beta & \text{for } y > \alpha \end{cases}$  Proof: Just generate a number  $X$  uniform in  $[0,1]$  2d92ce491b
