Installation instructions for Oracle Database for Windows, 32-bit on Windows (32-bit) . Oracle Database Release 12c, 11.2.0.1.0. Oracle

Instant Client 8.1.2 download Instant Client 8.1.3 download Please find below additional installation instructions for Instant Client. [Added for versions 8.1.1 and above] Instant Client installs to the C:\Program Files\ORACLE directory unless you choose a different installation location using the SQL*Plus "Directory" command. For example, the command SQL*Plus "Directory C:\oracle\product\8.1.3" connects to C:\oracle\product\8.1.3, or Oracle Home on Windows....Click here for more details. Instant Client Setup with Windows Server 2008 R2 Instant Client Setup with Windows Server 2012 Standard Installation Instructions Beware: If you are using Instant Client 8.1.3, the setup process won't find your installed Oracle Instant Client 8.1.3, if you have installed the 32-bit version on a 64-bit Windows. Therefore, you might want to download the 64-bit version of Instant Client 8.1.3, please find the below link: Accessing the Oracle Database Using Instant Client First, you need to download the Oracle Client software, ensure you have the required components on your computer. Note that Instant Client does not install with the Oracle Client for Windows installation package, but you need to install the Instant Client separately (see Installing Oracle Client software for more details). Using Instant Client for accessing the Oracle Database, you need to create a TNS alias for that Oracle Database. For more information, please see Using TNS alias (instead of Oracle protocol) for connecting to Oracle Database. See below links for more details on the setup & installation of the Instant Client. Installing Oracle Instant Client 8.1.3 for Windows 32-bit (version 8.1.3 for 32-bit) Install Oracle Instant Client 8.1.3 for Windows 32-bit (version 8.1.3 for 32-bit) Installing Oracle Instant Client 8.1.3 for Windows 64-bit (version 8.1.3 for 64-bit) Install Oracle Instant Client 8.1.3 for Windows 64-bit (version 8.1.3 for 64-bit) Installing Oracle Instant Client 8. d4474df7b8
