References Category:Companies based in Nuremberg Category:Manufacturing companies of GermanyQ: How do I transfer an existing device account from an HTC device to an iPhone? I have an old HTC phone that I no longer use, and I would like to transfer the account from it to an iPhone, preferably with a single login. I can see I can sign into Apple's own account on the phone, and then connect via WiFi to a Mac or PC, but will this require me to create a new Apple account on my new phone? Or can I transfer the old account to the new phone, and simply re-sign in using the phone number and password? A: You should be able to do this without creating a new Apple ID on the new phone. If it's a Google account you should be able to do it with Google Authenticator, if it's something else, you'll have to look at the options they give you on that device and if they support password transfer. Q: Prove $\lim_{n \rightarrow \infty} \sum_{k=1}^n \frac{1}{k} \prod_{j=1}^k (1-j^{-1}) = 1$
