Category:History of Tirana Category:History of Albania Category:Architecture in AlbaniaMOMMA AND DAD MOMMA AND DAD Posted on 01.12.2015 Written by: Chris Thayer The title of this song describes the bond that exists between mom and
dad, which I suppose is what the title of the show is about, although they do not tell us that. It is one of my favorite Disney songs because it is one of the few songs I know of from a Disney movie that is not instrumental. It is about a father whose son just left home, a mom who longs to see him, and a dad who feels old and useless. The boys sing about how the boy left, and how the mom
and dad will never forget him, while they watch him get on a plane. It ends with the father singing a heartfelt "you got my imagination running wild" because it was his imagination that made him feel young and reminded him of his son. There's a man who taught me everything I know And I'll never forget his name I called him, "Daddy," and now he's gone He's forever in my heart. Though
I know it's hard for you, I gotta leave you And I'll never forget you I pray that wherever you may be You'll see this letter and remember me. 2d92ce491b
