Category:1974 birthsQ: Creating a dialog box with a single button on main activity, on clicking the button a new view pops up I'm trying to create a dialog box on main activity which has a single button and on clicking the button a new view(which is not my layout file) pops up. I've tried several methods which I've tried yesterday but none of them worked. Here's the code: In onCreate() method of my MainActivity class:

```
btn_sign_up.setOnClickListener(new  
View.OnClickListener() { public  
void onClick(View v) { final Dialog
```

```
dialog = new Dialog(this); dialog.set
ContentView(R.layout.activity_creat
    e_client); dialog.setTitle("New
Client"); dialog.show(); } }); and in
another java file in create.java:
package co.endrath.tripless; import
    android.app.Activity; import
    android.app.AlertDialog; import
    android.content.DialogInterface;
    import android.content.Intent;
import android.os.Bundle; import
    android.util.Log; import
    android.view.Menu; import
android.view.MenuItem; public class
CreateClient extends Activity {
    @Override public void
```

```
onCreate(Bundle savedInstanceState)
{
    super.onCreate(savedInstanceState);
    setContentView(R.layout.activity_cr
        eate_client);
    //setContentView(R.layout
        3da54e8ca3
```
